

Mixed use

Three Colts Lane
Bethnal Green, London

The proposal, for over 500 student bed spaces, provides a high density sustainable scheme on a brownfield site located close to a range of amenities and public services, at Bethnal Green in London.

The mixed use buildings, designed over 7 storeys, will provide commercial floor space at ground and first floor, as well as offering student accommodation with associated communal and social facilities.

The scheme is designed to foster a sense of urbanity appropriate to the location and creates an interesting building with a variety of scale and form.
