Residential
Tennyson Close,
Brigg

The scheme provides a total of twenty four 2-bedroom retirement apartments for rent by the housing association L & H Homes Ltd.

The proposal is a bespoke solution to a unique setting which includes the retention of a number of existing trees set within the site boundary. An enclosed courtyard garden provides a focus for the residents and a place where people can meet in an informal external setting.

The scheme achieved Code for Sustainable Homes level 4. Key sustainable features include super insulated elemental values, green guide A+ timber frame, combined heating and power plant [CHP], photovoltaic solar panels, low water usage and communal rainwater harvesting.
